

## Update to Covid-19 Protocols

May 16, 2021

Last week the CDC and Governor DeWine announced that anyone who is FULLY vaccinated is no longer required to wear a mask or to maintain a 6 foot distance. As a result, we are matching this guidance. We also are no longer requiring masks indoors for those who have contracted COVID-19 and recovered. If you are not vaccinated, please use your own discretion and precautions as you are comfortable. While we may have some who are not comfortable yet with this change or may be at higher risk, the Seasons room will continue to be available. If you are in the Seasons room, please be sure to continue wearing your mask. We thank God for this ability to begin to return back to normal. Until we can make additional changes such as removing other restrictions (eg, bathroom maximum occupancy), these restrictions will remain in place until further notice.
